INFORMATION FOR NURSING HOME FACILITY LEADERSHIP

“

We believe partnerships such as the CNA Apprenticeship program will improve employee retention and satisfaction, which in turn improves residents' quality of care. It also provides an avenue for these workers to learn new skills and hopefully open up opportunities that lead to continued career growth in long-term care.

About the Education Fund

The Education Fund is a joint effort led by both employers and the union to provide educational opportunities and career pathways to workers through building skills and earning industry-recognized certificates.

“

The Ed Fund is a great resource that helps nursing home workers continue to build our skills and improve the care that we give.

George Nmah, CNA

”

OUR IMPACT

- Enhance worker skills
- Increase on-time renewal of certifications for licensure and compliance
- Improve worker morale and retention rates
- Improve the quality of care being delivered to residents
- Prepare workers for the job demands of the future
- Provide quality & tailored education programs

WHO WE TRAIN

We provide training for your employees who are part of the bargaining unit in your collective bargaining agreement (CBA) with SEIU Local 2015. Employees are eligible after three months of continuous contributions to the Fund.

“

Long-term care workers are amazing people with huge hearts ... The Ed Fund gives back to them by providing the training and educational support that they need, and that they truly deserve.”
